

PRESS RELEASE 11 August 2008

Retail Brand Leader Paperchase Write the Future with Select Software HR and Payroll

Paperchase, the UK's retail brand leader in design led and innovative stationery, purchased Select Software's HR and payroll solutions this month.

With 1200 staff and more than 100 outlets in the UK alone Paperchase requires an HR & Payroll solution that will mirror its continued growth and help achieve its business targets.

Paperchase's head office is situated in Central London. Elizabeth Webber, Payroll Manager for the UK, headed up the team responsible for finding the right solution.

Elizabeth says, "I am extremely happy with our decision to purchase the Select HR & Payroll package and work with the Select team to bring our payroll function back in-house.

Despite many companies choosing to outsource their payroll and HR responsibilities, Paperchase feels strongly that these areas of the business are extremely sensitive and our employees therefore deserve to have an in-house team that they know and trust and are always available to answer any questions they may have.

The move will also assist the payroll department by giving us greater access to, and control over, historic information. This will improve the integrity and depth of our reporting which will in turn enable us to better support the business in an exciting time of continued success and growth.

Of all the potential providers I saw throughout the selection process, not only did Select provide the best software solution for our needs, but they were, at all stages, the most professional, straightforward and supportive team, which further strengthened my decision to choose Select Software."

HUMAN RESOURCE MANAGEMENT SYSTEMS

Select Software are very excited to have such a prestigious and well known retail organization as a client and look forward to working with Paperchase in the future.
