

PRESS RELEASE January 2009

Select Software Celebrates Third Year of Microsoft Gold Certification

In February 2009, Select Software will celebrate three years as a Microsoft Gold Certified Partner. "Three years of consistently gaining the highest level of accreditation in the Microsoft Partner Program is a major achievement for us," comments Julian Kirkness, Managing Director. "We are delighted to be able to say that we have been totally committed to developing our software on a Microsoft platform during this time and will continue to make the most of new product releases from Microsoft, giving our clients the best possible service and putting us ahead of the game."

"We have greatly benefited from the stamp of approval that holding Microsoft Gold Partner status has given us", comments Dee Caporali, Sales & Marketing Director of Select Software. "Clients are able to rest assured that our solutions are compatible with the Microsoft platform and that our development strategy is in line with that of Microsoft". "There have been other useful benefits also such as the regular customer surveys carried out on our behalf by Microsoft, providing useful feedback that we are able to use to influence both our development and customer service strategies. The ability to engage in joint projects with Microsoft and the chance to meet and work with other partners has brought us considerable benefits. We hope to be Gold Partners for many years to come!"

Gold Certified Partners represent the highest level of competence and expertise with Microsoft technologies, and have the closest working relationship with Microsoft.
