

PRESS RELEASE      28 July 2008

## **Cleveland College Designs its Future with Select Software**

Cleveland College of Art & Design based in Middlesbrough and Hartlepool purchased Select HR Insight and Clearvision, the robust database and innovative self service solutions from Select Software this month. They join a client list of over 70 other colleges using Select Software's HR solutions.

Cleveland College of Art & Design is the only specialist art and design college in the North East and has been established for over 100 years. Many of the teaching staff are practicing artists, designers and crafts professionals with much experience in the industry and many close links to business, which can offer students innovative pathways into employment.

The decision to purchase Select was taken by Catherine Clennett, Director of Personnel and Student Support. Catherine said, "A number of providers initially appeared to meet our needs but the references from existing users showed that in terms of ease of use, accuracy of reporting, after sales service, and the ability to address sector specific requirements such as the annual SIR, IfL membership and Disclosures, Select was the provider to choose. We very much look forward to working with them."

Select Software UK Ltd is a specialist supplier of Human Resources and Payroll software.
