

Bedell Group Choose Select Software to take HR Forward

Leading offshore based provider of legal and fiduciary services, Bedell Group, have purchased the very latest browser-based Select HR solution from Select Software.

Bedell Group, based in Jersey, offer a broad range of specialist Channel Islands legal advice and offshore & onshore corporate services to their clients. Their network of offices extends from the Channel Islands to London, Dublin and Geneva.

For the second year running, Bedell Group has been ranked in 'The Best Professional Firms to work for the UK' from 'The Sunday Times Best Companies to Work For' listing. Around 90% of the ranking is decided from staff feedback so Bedell Group obviously takes their staff welfare very seriously - employees are at the heart of their business. Richard Gerwat, managing partner of Bedell Group comments: "Our interest in and concern about employee engagement is not an initiative or operating procedure, but a way of being."

With this in mind, Joan Hodge, Head of Human Resources, is investing in HR software and in Select HR. Select HR's unique combination of highly versatile and comprehensive standard functionality, together with the very latest technology, gives Bedell Group a cutting edge browser and .NET based system.

Joan comments, "After a great deal of market research, we chose Select HR for its flexibility, particularly the workflow and self-serve options and the user friendly interface. We believe this product will provide a cost effective and forward thinking solution to our administrative needs".

We are delighted that Bedell Group has joined nearly 30 other legal firms currently using Select Software's HR solutions.
