

Wiltshire College Invests in HR with Select Software

Wiltshire College, formed in 2000 and recently merged with Salisbury College in January 2008, purchased Select Software's HR Software Solutions, Insight and Clearvision this month.

The college operates out of four main campuses - Chippenham, Lackham, Salisbury and Trowbridge. It is situated in the attractive countryside of the west of England, and is now the main provider of further and higher education in Wiltshire. With a £40m turnover and over 1000 staff Wiltshire College is also one of the largest employers in the county.

With some 3300 full time and 6000 part time students, from the UK and worldwide, Wiltshire College's reputation for quality, innovation and student care is continuing to grow apace.

Select HR Insight and Clearvision, the robust database and innovative self service HR solution, was chosen after a formal tender process which took place over a number of months.

"We chose Select HR Insight and Clearvision because it will allow us to move our systems forward, particularly with regard to self service and online recruitment," says John Nutt, Director of Personnel. "Of all the HR software systems we saw, Select HR Insight and Clearvision was the most versatile and had the most functionality available to users."

Select Software is delighted that this newly-merged, exciting and prestigious college has joined over 70 other Further Education clients using Select HR Insight and Clearvision.
