

PRESS RELEASE 28 July 2009

Leighton Park School, Reading makes an Educated Choice for its HR software – Select HR Web Edition!

Leighton Park School situated in Reading purchased Select HR Web Edition this month from Select Software.

Leighton Park is a co-educational, day and boarding independent school. It was opened initially in 1890 by members of the Religious Society of Friends (Quakers), as a public boarding school and was recently described by The Good Schools Guide 2008 as one of the most distinctive schools they had visited, with “integrity and honesty at heart”.

Liz Sexton, the HR Director, joined Leighton Park earlier this year with a remit from the Head and Bursar to head up the HR function there and source an HR software system.

“I am thrilled that my recommendation to purchase Select HR was agreed for Leighton Park School,” says Liz. “We currently have no computerised HR system in place, so it will be a huge step forward to be able to produce meaningful management information for the Governors and the Head, Deputy and Bursar – something they have never had before.”

“In my 18 years experience in HR and HR computer systems I have found Select HR the most flexible and user friendly system I have come across,” she comments. “Web edition offers many more facilities than the previous version of the software which I have used before. The ability to offer self service is a great step forward and I am looking forward to adding value to the HR service at Leighton Park.”

“Leighton Park School is a very welcome addition to Select Software’s client list,” says Dee Caporali, Sales and Marketing Director. “Liz has been a champion of ours having used Select HR in her previous organisation and it is great to continue our working relationship in a new environment. We are sure that the features available in Web Edition combined with the very latest technology will give Liz and Leighton Park an invaluable tool to help manage their new HR function. We look forward to working together again!”
